

Exhibit C attached hereto provides a table of contents without page numbers for printing in a patent that may issue on the instant application to assist the public in following the disclosure. The Examiner is requested to arrange for inserting of patent column numbers when a patent issues to assist the public in following the disclosure.

The amendments to page 2 of the specification claim the benefit of two additional applications as ancestor applications. This is expressly permitted by 35 USC 120.

An application for patent for an invention * * * and if it contains or is amended to contain a specific reference to the earlier filed application." [emphasis added] 35 USC 120

II AMENDMENTS
